

The Atrium Clinic

Centre for Advanced Dental Care

Introduction to Implant Dentistry

The Atrium Clinic

October 12 & 13th
2-7pm 12th and 9-3pm 13th
at The Atrium Clinic

Speakers

Traelach Tuohy and Sean McCarthy

- CPD: 12 hours
- Delegates: 12
- Fee: €250

- A course at straightforward level to provide an introduction into the restorative aspects for dental implantology.
- An understanding of how to provide a new treatment option for patients.
- Interactive, group lead discussion incorporating lectures and hands-on exercises.
- An overview of the Straumann Dental Implant System from a restorative aspect.
- Gain confidence in case selection and treatment planning.
- The necessary skills to perform impression taking and the relevant communication required with the technician for the fabrication of the fixed and removable prostheses.
- Understand the importance of the use of provisional restorations.
- Case completion and aftercare maintenance.
